

TV MANUAL

(Room 1 and 3)

Dear guest,

Our TVs work with streaming services such as Netflix, Disney Channel, Spotify, VRT max, VTM Go, ...

Below you'll find the manual:

- Turn on the device using the power button on the white remote control (Google Chromecast).
- It may take a moment to start up.
- You can now open the different apps. On most of them, I'm already logged in, so you can start watching TV right away.

If the Chromecast doesn't start up, the TV might not be on the correct input. In that case, please do the following:

- Use the black remote control.
- Press the 'source' button (top right).
- You will now see all inputs → select *HDMI 1* and press *OK*.

If it still doesn't work, feel free to ask us for help at any time!

We wish you a pleasant stay!

Warm regards,
Michael and Eline
